

**Are you a
healthy
woman
between
age 25 & 35?**

If so, you may qualify for a new one-visit research study comparing how the power houses (mitochondria) in blood and muscle cells act.

To see if you are eligible contact the Recruitment Office:

501-364-3309

A blood sample and a muscle biopsy will be collected during this 2 hour research visit.

To thank you for your time, monetary compensation will be provided.

Study led by Elisabet Borsheim, Ph.D.
